

Lifecycles

Discover how different animals grow and develop

Year 3-4

Learning Outcomes:

At the end of the session:

- ✓ **All pupils** will know animals have different lifecycles
- ✓ **Most pupils** will be able to group animals based on their lifecycles (e.g. live birth compared to egg-laying)
- ✓ **Some pupils** will start to understand how there is a key link between animal biology and lifecycle

Session Outline:

The session begins by discussing simple and complex lifecycles, as well as live births and egg-layers. Games explore lifecycle stages, egg varieties, and how egg design aids survival. Other games will demonstrate the perils animals face throughout their entire lifecycle and how survival strategies can help.
